### Trukmė

Nesvarbu

### Darbinis statusas

Atvira's Pasiūlymui  
(Atnaujinta: Prieš 5  
mėnesius)

### Darbo krūvis

100%

## Apie Mane

10+ years in web development, taking leading roles last 3 years. Working in industries covering finance, insurance, payment, credit, identity fraud, health care, manufacturing, delivery, gambling areas.

Competences for whole project / product life cycle. Working with open-source technologies : PHP(ZF1/2, Laravel5, Symfony2), MySQL, PostgreSQL, Apache/NginX, Linux, HTML5 (Bootstrap), CSS3 (Less/Sass), JavaScript(Jquery, AngularJS). Familiar with Elasticsearch, Redis, Memcached. Participated in various size product development. Agile team member and coordinator. Acted in various development roles, including team leading, technology leading, architecture, senior back-end developer. Comfortable with new technologies.

As a result of my experience, i have a feel how to organise development process, how to deal with business people, even how to present company during employee interviews and much more.

I expect my Employer to be really Innovative, trust in agile Teamwork spirit, and allow us to expose our Talent :)
