Description

Behalf of our client, we are looking for Freelance .NET Developer.

Mid-Level .NET Developer

Project/Client: public sector

Location: Preferably Vilnius

Start Date: ASAP

Duration: 6 months

Language: Lithuanian (mandatory)

Role:

The project focuses on consolidating access to public and administrative services into a unified platform, simplifying service discovery and usage for all users, including citizens and foreigners. It aims to provide a modern, user-friendly interface supported by advanced search capabilities and personalized notifications. The goal is to enhance accessibility, ensure mobile and web usability, and improve the overall user experience through innovative and intelligent solutions.

Requirements:

- **Experience with .NET Technologies:** At least 2 years of hands-on experience with .NET

frameworks and related technologies.

- **Database Skills:** Ability to work with relational databases and write efficient queries.
- **REST Services Knowledge:** Practical experience in creating, developing, and utilizing RESTful APIs.
- **Language Requirement:** Lithuanian language is mandatory.
