Aprašymas:

Our Client - FrontIT is a boutique software development and IT consultancy company, located in Vilnius, Lithuania, and servicing highly demanding clients in Scandinavia.

For our client we are searching for a talented **Magento developer** to join growing team in Vilnius office.

We are searching for developer(s) who has the **Magento framework based systems**

development experience and the strong passion about the software they create.

From you we would expect:

- Participate in all stages of the project together with project manager(s) and the Client.
- Contribute to the architectural vision of any system you work with.
- Work closely with designers, front-end developers and quality assurance specialists in a fast-paced, iterative driven environment.
- Take the initiative in identifying and sharing new approaches with the product team and management.
- Work in a team of young, professional and passionate people.

We are offering:

- Work with experienced professionals

- Non-hierarchical, significantly liberal and democratic organization
- Scandinavian mindset and environment
- Occasional trips to Scandinavia
- Pursuit for highest quality in every detail we do
- Fully paid qualification courses and industry events

Requirements:

- A good understanding of PHP and object-orientated programming is a must (at least 5

years as a PHP developer, previous experience should meet listed requirements and responsibilities).

- Experience with Magento: Magento 1.x (at least 2 years)
 - Experience with database: MySQL.
 - Experience with JavaScript.
 - Experience with HTML5 and CSS3.
 - Detailedness, responsibility, passion for your work.
 - Open mindset for development methodologies and technologies.
- Good command of written and spoken English.
- Foosball tolerance :)
