### Description

Behalf of Danske Bank, we are looking for UX Designer to join Finance Tribe team.

#### About the team:

Finance tribe mission directly linked to the importance of efficiently steering Danske Bank's financials. Efficient steering needed to ensure Danske Bank delivers on its financial potential, benefiting customers, colleagues, society, and investors through having a solid bank financially.

They have a substantial backlog of initiatives, delivering on their goals to provide fast & correct financials to investors, regulators, and internal decision-makers as well as optimize the management of the financial resources.

You will be working closely with BI Engineers, DevOps specialists, IT Systems, and Business analysts in cross-functional squads to deliver modern technology solutions across all financial domains. Their solution processes a huge amount of data stored on internal Danske Banks's cloud.

#### Responsibilities:

- Collaborate closely with IT architects, product owners and other stakeholders to ensure that design meets creative vision, strategy and project objectives

- Remove friction, increase ease-of-use and constant strive for creating a delightful user experience
- Provide well written documentation on UX design: how to implement it, use it and the benefit it brings
- Share best practices with developers, get their mind-set shift towards usability first, code second

**Requirements:**

- Words like Usability, Accessibility, Behavioural design, Wireframe are part of your everyday vocabulary
- You are able to make your own decisions based on facts and data at your disposal
- Proven track of implemented UX solution in Fintech or other IT sectors
- Experience working in an agile environment is a plus
- English speaker who can work in a multi-cultural squad

**Company offers:**

- An inspiring environment in a large IT organization
- Work in an international team, which concentrates on innovative business facing solutions
- An extensive training program to ensure that your skills are maintained and updated on an ongoing basis
